DETAILED ACTION

This Office action is in response to the amendment filed July 1, 2005 in which claims 37 and 43 were amended. The rejection under 35 USC 103(a) of claims 37 and 43 is withdrawn in view of the amendment to the claims.

Election/Restrictions

1. Newly submitted claims 37 and 43 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The original claims were directed to a plant whereas the amended claims are now directed to a system.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 37 and 43 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Double Patenting

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double

patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Claims 1-6, 9-18 and 23-28 rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-11 of U.S. Patent No. 6,375,691. Although the conflicting claims are not identical, they are not patentably distinct from each other because the further component of the present invention may be either the elastomeric polymer material or the non-elastomeric polymer materials or a mixture of both as set forth in the claims of the patent.

Claim Rejections - 35 USC § 103

4. Claims 1-3, 5, 6, 9-15, 17-18, 23-28 and 34-36 are rejected under 35 U.S.C. 103(a) as being unpatentable over Andrews (US 5,643,342) for the reasons of record.

Applicant argues that Andrew does not teach or suggest at least 90% by weight of the fuel composition fed into the burner is combusted in less than 10 seconds.

With respect to the fuel composition claims, this limitation is given no patentable weight. The claims are directed to a fuel composition comprising fossil fuel, non-fossil fuel and polymeric material. Andrew clearly meets this limitation. Since Andrew meets the material limitation, it would be reasonable to expect that Andrew would meet combustion rate limitation, absent evidence to the contrary. Accordingly, this logic would also apply to the claims that are directed to the combustion method. Andrews teaches that the fuel composition particles do not fuse together to form one cohesive

and continuous piece of material. Upon burning, the pellets break into their original particulate components and each particle burns separately and in expansion (see col. 4, lines 28-36).

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
